  - d. When dates and times appear, click on the day and time you would like, and a form will pop up which you need to fill out and press "submit". It is "first come, first served" so someone else may beat you to submitting the form, so try again on another time.
  - e. Once you have a day and time confirmed, you can print out that page, but they will send you an email with the confirmation; print it out, and take it with you. When you get to the site which is at the far left end of the fairground, go to the door five minutes ahead of your time, tell them you time, and they guide you through the check-in process and shot procedure. They are very efficient and organized. They will give you a date for your second shot before you leave.
